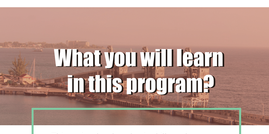
College of Safety and Ocean Engineering

Offshore Oil and Gas Engineering



What you will learn in this program?

This major develops basic skills and management knowledge, computer programming and application capabilities for modern marine oil and gas engineering design, research and construction. Graduates can engage in the development and management of mineral resources such as seabed oil and gas, marine structural design, research, manufacturing and inspection.

Courses you'll take

Marine Rock Mechanics
Structural Mechanics
Steel Structure
Marine Structure Vibration
Offshore Platform Structure Design
Submarine Pipeline Engineering
Underwater Production System Structure and Design
Offshore Engineering Virtual Reality and Digital Twinning Technology
Offshore Platform Disposal Technology

Teaching languages:
Chinese

Tuition:
25000 RMB/year

Course start date:
September

Course duration:
Four Years

Required qualifications for applicants

1. Non-Chinese citizens, in good health
