College of Chemical Engineering and Environment

Chemical Engineering and Technics

What you will learn in this program?

You will understand and grasp the knowledge of the fundamentals and specialty of chemical engineering. You will grasp knowledge in relation to Oil & Gas processing and refining, Chemical enhancement of production bio-chemical processing. Students also will develop the ability to independently conduct the research and be able to apply the knowledge to solve problems in theory and technology of chemical engineering.

Courses you'll take

Computer Aided Drawing
Chemical Safety and Environment
Petroleum Processing Engineering
Inorganic and Analytical Chemistry

Research areas

Petrochemical Engineering and Oil Refining

Required qualifications for applicants

1. Non-Chinese citizens, in good health

Applicants should be non-Chinese citizens. In the case of former Chinese citizens, they should have proof of having obtained a foreign citizenship for more than 4 years and with a valid passport.

2. Education and age requirements
